Dear Neil,

It gives me great pleasure to send you the enclosed draft copies of a manual of EEG analysis by digital computer methods and a summary statement of our experiences as Don and I presented these at the VIIth IBM Medical Symposium. I think we state fairly clearly that our present preference for period analysis is based on our experiences and I think you will be pleased with our present conclusions.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
