Professor P. B. Bradley  
The Medical School  
Birmingham 15, England

Dear Philip:

As of this afternoon we have received positive replies from Drs. Carlton, Hinwich, Itil, Longo, Votava and White. Dr. Jenkner has agreed to come but has some very stringent financial problems. Mme. Verdeaux has also agreed to come if support can be provided. Dr. Longo has also requested some funds to attend this meeting. Copies of these letters are enclosed.

The Program Committee has met and they did request our full program as of last week. As I indicated, I have suggested that they give us a few more weeks and will be meeting with Drs. Cole and Brill at the ACNP meeting next week.

Incidentally, Dr. Longo has written a rather detailed review of this subject and I am writing to him asking that he send you a copy as well.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
