Dr. John F. Davis
International Institute for Medical Electronics and
Biological Engineering
Hopital de la Salpetriere
47 Bd. de l'Hopital
Paris 13, France

Dear Dr. Davis:

My associate, Dr. Donald Shapiro, and I take pleasure in sending you file copies of two reports which we have recently completed describing our studies of computer analyses of the electroencephalogram. These may be of interest to you and some of the other members of the Institute.

We have been interested in reports of your work that have appeared in medical and biological engineering. Good luck in your work.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
