

November 9, 1964

Dr. Murray E. Jarvik, Associate Professor
Albert Einstein College of Medicine
Yeshiva University
Eastchester & Morris Park Avenue
New York, 61, New York

Dear Murray:

First, let me take this opportunity to thank you for your consideration and frankness in discussing the many problems in supporting psychiatric research.

In our discussion you indicated that you are completing a book chapter and I am taking the liberty of enclosing a reprint of the summary discussion held at the C.I.N.P. meetings in Birmingham in September. This review reflects my present thinking and is consistent with the views of Dr. Ulett and Dr. Itil, my associates in these studies.

If I can be of any further assistance to you, please do not hesitate to call on me.

Sincerely yours,

Max Fink, M.D.
Director
