

October 25th, 1972

Mrs. Carol Lewin,
President,
Metropolitan Electroencephalography Society,
Medical Science Building,
550 First Ave.,
New York City, N.Y.

Dear Mrs. Lewin,

I must congratulate you on your fine work with the Metropolitan EEG Society. As you may not know, I am moving my laboratory to the State University of New York at Stony Brook and will not be in New York except at rare intervals next year.

I think that your suggestion about having a session on drug abuse is important, and I would suggest that you invite my associate, Dr. Jon Volavka. He did participate in the symposium in Houston and has extensive experience, not only with research aspects of drug abuse, but with the clinical as well. May I suggest you reach him at (212) 369-7900.

Best regards,

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
