Dr. Lester M. Morrison
Institute for Arteriosclerosis Research
9331 Venice Blvd.
Culver City, California 90230

Dear Dr. Morrison:

Thank you very much for your kind remarks regarding our studies of fluphenazine decanoate. You will be pleased to know that we have just completed another study comparing fluphenazine decanoate and the commercially available fluphenazine enanthate. The differences between the two compounds are small and they are sufficiently similar for the enanthate to replace the decanoate.

I am sure that the physicians at the U.C.L.A. Medical Center know of fluphenazine enanthate and would be in a position to make the appropriate decision on behalf of your patient.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
