Professor Jiri Roubicek
Psychiatric Research Institute
Prague, Czechoslovakia

Dear Dr. Roubicek:

While my visit to Prague was very short, I enjoyed every minute of it and returned enthusiastic with the expectation of your visiting New York later this year. I especially enjoyed meeting Drs. Volavka and Matousek. Their spirit and excitement in their work was most encouraging. I hope it will be possible for both to join you in New York.

After leaving you in the airport I was fortunate in finding a most beautiful cut glass vase which will grace my home and remain as a continuing reminder the pleasant days in Prague.

Please extend my thanks to your wife and daughter who were so hospitable and who made the evening at the opera so enjoyable.

My best personal regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
