Mr. Henry Feiwel
850 Park Avenue
New York City 10021

Dear Henry and Maria,

At the recent APA meetings in Chicago, I was introduced to a psychiatrist from Lima, Peru. Recalling that Dr. Honario Delgado, a previous Professor, had displayed the art of his patients, I enquired what may have happened to the collection. I was told that it is maintained as a permanent museum under the direction of:

Dr. Grover Mori
Victor Larco Herrera Hospital
Pabellon #2
Lima 27 - Magdalena
Peru.

It was not clear whether they had a catalog, but part of the collection had been exhibited in Paris some years ago.

It may be of interest to enquire as to the state of the collection, so I have written to Dr. Mori.

I am delighted that you will be on the Island this summer. We are completing the refurbishing of our pool-side apartment, and it should be ready for visitors in a few weeks -- as soon as we can get the air-conditioning installed.

My best regards.

Sincerely yours,

Max
