Dr. Jerome Levine
Psychopharmacology Research Branch
National Institutes of Mental Health
5454 Wisconsin Avenue
Chevy Chase, Maryland

Dear Jerry,

Enclosed are two reports describing the EEG profiles of psychotropic drugs which have recently been completed with the support of MH-13003 and 13358. These are being considered for publication by Dan Efron in the proceedings of the ACNP, 1967.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
