Dr. R. I. Ilyutchenok
Department of Pharmacology
Institute of Cytology and Genetics
Novosibirsk
Russia

Dear Dr. Ilyutchenok:

The Symposium Committee for the CINP has planned simultaneous translation for that portion of our symposium in which your report was to have been read. They have just written indicating that it would be helpful to have copies available before the meeting so that the translators can have an opportunity to become better acquainted with the manuscript.

I would be grateful if you would send me a copy by airmail as soon as possible.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
