

February 27, 1974

Costas Stefanis, M.D.
Eginition Hospital
Thens, Greece

Dear Costas,

Enclosed is the official acceptance of the report before the APA, to be presented in Detroit on May 9.

I have been invited to Europe for the first ten days of April, and should be free on April 11 to come to Athens for as many days as it may be useful. I should have the results of the ongoing analyses with me at that time. If that period is convenient for you, I would like to meet with you and to work to the extent of the time available to us, anticipating completing the discussions in New York when you come some weeks later.

Is that time convenient for you? (If not, we can defer our meetings until you come to the United States.)

If it is, I would like to bring Dr. Dornbush with me. Is that agreeable to you?

My best regards.

Sincerely yours,

Max Fink, M.D.
