Dear Doctor Manuzza:

The literature on ECT, including my own contributions, became so large that I wrote an exhaustive review in 1979. A copy was sent to the Heany Lorand library.

You may also wish to see the APA Task Force report #14 published in 1978. Between the two volumes, you should get a good grasp of ECT issues for 1980.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
