Mr. Gary Boyer
Center for Studies of Narcotic & Drug Abuse
National Institute of Mental Health
5600 Fishers Lane
Rockville, Maryland 20852

Dear Mr. Boyer,

On June 19 I submitted a request for 500 Gm marijuana, 2.5% THC equivalent for the withdrawal studies in the chronic hashish users in Greece. Since then, Dr. Steve Szara has notified me that the samples I requested were inadequate for the task, and has recommended that we request NIMH, Nepalese-derived hashish, 5.5% THC in substitution for the marijuana.

Enclosed is a BND 222C form requesting 300 grams hashish. It is my intention to transship these to Professor Stefanis in Athens for his use, under my current export license P F0100759).

Many thanks for your cooperation.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
