Re: MH 07249-02S1

Dear Jonathan:

Enclosed is a progress report concerning the project EEG and Human Psychopharmacology, MH 07249. Since the application for the supplement was submitted early in April, we have continued to work on this project and I believe the attached information would be of some help to the reviewing committees in determining the merits of the supplementary request.

In the event this supplementary program is approved, it would be helpful for us if two additional items were included in the budgetary request.

In Movable Equipment, a sum of \$2,380 for the following:

2 IBM Disc Packs @ \$490 each	980.00
10 Magnetic Tapes @ \$40 each	400.00
1 High Gain Amplifier (probably Tektronix)	1000.00

Under Consumable Supplies, it would be helpful if we had an additional sum of \$500 to permit modification of our amplifiers and electronic equipment. The justification for these items is in the progress report.

Thank you very much.

Sincerely yours,

Max Fink, M. D.
Director
