Dr. Joseph Zubin
Biometric Laboratory
New York State Psychiatric Institute
722 West 168th Street
New York, New York

Dear Joe:

I was talking to Jonathan Cole about another problem earlier this week and he mentioned your project on diagnosis. In this mornings mail I received notification from Dr. Grinker that the enclosed report has been accepted for publication. I am taking the liberty of sending you a copy because I believe that this will support any effect that your study group can make in providing objective classification methods for the mentally ill.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
