Dear Lou,

Enclosed is my full C.V., as you requested.

What is not cited in this record is the extensive interaction with fellow scientists. Much credit must be given to my co-workers and students, notably Robert L. Kahn, Ph.D., Max Pollack, Ph.D., Donald F. Klein, M.D., Joseph Jaffe, M.D., Turan M. Itil, M.D., Donald M. Shapiro, D.Sc., Richard Abrams, M.D., Michael A. Taylor, M.D., Alfred M. Freedman, M.D., Rhea Dornbush, Ph.D., and Jan Volavka, M.D., Ph.D. among many others. I am particularly proud that many of these co-workers are independent investigators of national and international renown.

Good luck in your work. I trust I will get a chance to see the final product.

My regards.

Sincerely yours,

Max Fink, M.D.
