Dear Dr. Remond:

I reply to your letter of October 3, regarding an International Course on the occasion of the next International EEG Meeting, I am pleased to send you my suggestions for the titles I would choose for the sections of a modern book on EEG. Incidentally, I enjoyed this exercise for it forced me to think of our field in very general terms.

I trust these are helpful and you may be assured of the collaboration and support of the members of my laboratory in your efforts.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
