Enviro Systems Service Corp.  
9 Shirley Street  
Bohemia, New York 11716

Gentlemen:

These bills reached us after some delay and reflect charges in the Earth and Space Sciences installations. We have no responsibility for those and we would suggest that you submit these to the proper department.

The statement of October 31 carries, in addition to these three charges, two charges dated 8/24/73 and 8/30/73. If my recollection is correct, WO-2778 was referred to J & E because I felt that this was under the first-year warranty. If this is incorrect, please submit a statement with the approval of J & E for payment.

WO-2849 is a charge for two boxes of filters which we had indicated earlier were excessive for our needs and which we had refused at an earlier date. At some point these were shipped again, not following our request. My assistant, Mr. Irwin, called your office to indicate that we had obtained an adequate supply of filters through bids at a lower cost and that this shipment should be picked up.

Sincerely yours,

Max Fink, M.D.
