

March 12, 1965

Dr. Nathaniel Siegel, Ph.D.
National Institute of Mental Health
Bethesda, Maryland

Dear Nate:

I have accepted all your recommendations and have redone this report. Enclosed are a few copies which, while they still may have a typographical error, are in a form which could be sent to a publisher. I have taken the liberty of running this off on Colitho plates, so that if it is not published, we may still have some copies for our friends.

Unless I hear from you or receive a stop order, I will send a copy of this to the Archives of General Psychiatry.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
