Dr. George L. Hall
D. C. General Hospital
Psychiatry Building
19th Street & Mass. S.E.
Washington, D.C. 20003

Dear Dr. Hall:

It was a pleasure to speak to you last week regarding a study of cyclazocine in the treatment failures in your present collaborative depression study. While we had intended to arrange a meeting within the next few weeks, the various vacation schedules precluded such a meeting.

Since the schedules for early September are not yet arranged, we have decided to defer such a meeting and I look forward to calling you again soon after Labor Day.

I look forward to meeting you.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
