William Clowes & Sons Ltd.
Station Road
Great Yarmouth
Norfolk, England

Gentlemen:

In this morning's mail, I returned the galley proofs of the article, EEG Applications in Psychopharmacology, without checking the figures. Later today, I received the proof of the figures and in checking these, found two additional corrections on pages 166 and 168.

On page 166, the formula should have a label, GPA-1714.

On page 168, the first figure does not have a label and should be marked, MK 940. In addition, a line should connect the first "CH₂" with the junction of the three points under the letter "O" in the center of the figure (see xerox attached).

Sincerely yours,

Max Fink, M. D.
Professor of Psychiatry
