Dr. Milton Kletzkín
Department of Pharmacology
Wallace Laboratories
Cranbury, New Jersey

Dear Milt,

I want to thank you for the opportunity to visit your laboratories - which are most impressive.

On Sunday I met the Chairman of the 1970 CINP program committee and discussed the interest in a program of animal EEG models in psychoactive drug evaluation and classification. The suggestion was well received, and I would like to discuss it with the full committee on May 6-7.

If you are interested in participating, would you be able to review the world scene and recommend scientists from industry and the academic scene, who may be able to contribute?

Many thanks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
