Dr. Fletcher Owen
A. H. Robins Company
1407 Cummings Drive
Richmond 20, Virginia

Dear Dr. Owen:

In addition to the study of the effects of Tybatran in the treatment of opiate dependence, Dr. Sharoff and Dr. Major assessed its merits in the treatment of withdrawal from dependence on non-narcotic sedatives. An interim report of those observations is enclosed as well as a set of case records. These are submitted for your information and I trust that these are helpful.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
