

April 5, 1971

Dr. Michael O'Neill East  
Pfizer Pharmaceuticals  
U.S. Clinical Research Unit  
Groton, Connecticut 06340

Dear Dr. East:

I have reviewed the protocols for UK 7007 and I believe that Chuck can carry them out and we will review the data. He is due here for a briefing and review during the week of April 12, and I will go over the schedule with him at that time.

It should be interesting.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
