

November 25, 1971

Representative Paul Rogers
U.S. House of Representatives
Washington, D.C.

Dear Mr. Rogers,

It was kind of you to spend so much time last Friday to discuss the pending drug abuse legislation.

On my return to New York, I discussed the suggestions for increased participation by scientists for the hearings next week with Drs. Alfred Freedman (New York Medical College), Jonathan O? Cole (Boston University), and Daniel X. Freedman (Chicago U.), and each indicated that participation in the hearings would be beneficial.

Should it be useful, I will be available on Thursday, November 2 or Friday, December 3. I plan to return from meetings in Mexico City Wednesday afternoon, and could change my itinerary to arrive in Washington Wednesday evening.

Should this be useful, please call my office in New York (212 369 7900 x245,246) and my secretary will get the message to me. Or, telex the Camino Real Hotel in Mexico City.

Drs. Alfred Freedman, Jonathan O. Cole and Daniel Freedman can also appear and can be reached at - AF: 212 369 7900 x222; JOC: 617 436 6000; and DXF: Department of Psychiatry, U. Chicago.

Again, my thanks for the opportunity to discuss the pending legislation which seems so important to the drug abuse control efforts of the nation.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
