Dr. Seymour S. Kety
Department of Psychiatry
Massachusetts General Hospital
Fruit Street
Boston, Massachusetts 02114

Dear Seymour,

I very much regret not making the LaJolla meeting, but I became ill with influenza the day before I was scheduled to leave for California, and spent an unprofitable week in bed.

Your notes were most helpful, and with the changes recommended by Jim McGaugh and Tom Williams, yielded the enclosed program for an ECT meeting. Tom believes he can get it before the appropriate committee in April.

Many thanks for your suggestions, and my very best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
