Hubert A. Carbone, M.D.
Chief of Clinical Affairs
Northville Regional Psychiatric Hospital
41001 Seven Mile Road
Northville, Michigan 48167

Re: Oliver T. Nikolovski, M.D., D.P.M.

Dear Dr. Carbone:

Dr. Oliver Nikolovski was a member of the staff at the New York Medical College during my tenure in 1966 to 1972. Initially, he served as a research psychiatrist in psychopharmacologic studies; later, he was the clinician in the Day Hospital.

During the time he worked with me, I found him a loyal and dedicated worker. He is sincere, honest, and responsible. He was well liked by the staff and the patients and he was enthusiastic to carry out the studies we designed.

Dr. Nikolovski is an excellent member of a clinical team, and he has the skills to carry out clinical functions in the management of the treatment of the mentally ill. I recommend him for a clinical position, without hesitation. With regard to his capacity as a residency training director, I am unable to give you any definite opinion, since he did not function in this role during his tenure with us; nor was I able to observe his teaching sessions, since these were largely part of the clinical teaching sessions.

I trust this information is useful.

Sincerely yours,

MF:BK

Max Fink, M. D.
Professor of Psychiatry
