Dr. Harry Goldenberg
Hillside Hospital
P. O. Box 38
Glen Oaks, New York

Dear Harry:

Recently we replied to an advertisement in Science regarding an opening for a clinical chemist at this Institution. Dr. Albert E. Sobel, formerly of the Jewish Hospital replied. I have the distinct recollection of meeting him in your office. He gave your name for reference and I would be pleased to have a letter from you regarding his qualifications as a clinical chemist and especially his ability to participate in the kinds of biochemical research programs which you and Arnold are undertaking.

It would be especially helpful if we had a candid statement regarding his reasons for leaving Jewish Hospital, and any other comments that you may make that would be helpful to me in my recommendations regarding his appointment.

My best regards to you and Vivian.

Sincerely yours,

Max Fink, M.D.
Director
