Dr. Allen P. Borger
Chas. Pfizer & Co.
Groton, Connecticut

Dear Allen,

Enclosed are three copies of the final report of our study of doxepin and chlorthalidone in anxious outpatients. This report has been sent to *Current Therapeutic Research* for their consideration.

Separately, I will send a more complete final report, and copies of the various rating scales used in the study. Earlier, you obtained a copy of the statistical analyses of the Biometric Laboratory.

Again, my thanks for your cooperation during this extended study.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
