

January 11, 1968

Mr. Robert Shearman
IBM Corporation
211 Montague
Brooklyn, New York

Dear Bob,

I am sorry that I missed you during your recent visit, but Don had told me of the change in your assignment. I want to thank you for all your help in establishing our small computer unit. It is exciting to realize that we are operational and in less than one year.

There is still some question about the demonstration in May, but this should be resolved within the next few weeks.

My thanks again for your help and my best wishes for your continued success.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
