Dr. Dieter Bente
Chairman, Program Committee
C. I. N. P.
Universitäts-Nervenlinik
Schwabachanlage 10
Erlangen, Germany

Dear Dieter:

I have received the list of the working groups in experimental neurophysiology and clinical neurophysiology, and I am delighted with both. I would like, however, to ask that you include the name of Turan Itil in the panel on clinical neurophysiology, as I think that Turan has exceptional experience and remarkable judgment in this field. I also noted that your own name was not included and I do hope that you will be able to participate during the clinical neurophysiology discussions.

Separately, I am writing to Dr. Bradley, suggesting that Dr. Charles Shagass of Iowa City be invited as my guest to the CINP. In view of his special experience, I believe he would be an important participant in the panel on experimental neurophysiology and hope that it would be possible to include his name in that list.

I am working hard on my presentation, and I look forward to seeing you at the end of August.

Sincerely yours,

Max Fink, M.D.
Director
