Dr. Fritz A. Freyhan  
Chairman, Credentials Committee, A.C.N.P.  
Clinical Neuropharmacology Research Center  
CI, NIMH, William A. White Building  
Saint Elizabeths Hospital  
Washington, D. C.

Dear Fritz:

It is a pleasure to recommend Dr. Turan Itil for membership in the American College of Neuropsychopharmacology. Dr. Itil is a member of the Collegium Internationale Neuro-Psychopharmacologium and Arbeitsgemeinschaft fur Neuropsychopharmakologie. For the past ten years he has been working with Professor Flügel in Erlangen. His contributions concerning psychopharmacology and the EEG changes in psychiatric patients are well known to you.

In March, Dr. Itil joined my staff on leave from the University of Erlangen. He has been appointed Principal Research Scientist (EEG) to the Missouri Institute of Psychiatry.

I would be pleased if he were accorded fellowship in the ACNP.

Sincerely yours,

Max Fink, M. D.  
Director
