

November 20, 1964

Leo G. Abood, Ph.D.  
University of Illinois  
School of Medicine  
912 South Wood Street,  
Chicago, 12, Illinois

Dear Leo:

Thank you very much for accepting our invitation to participate in the proposed symposium at the Society of Biological Psychiatry in May, 1965. I am enclosing a copy of the call for scientific papers and a letter that Sam has written to Dr. White.

I am proposing that you will talk about "Biochemical Concepts of Anticholinergic Psychotomimetics".

This proposal will be sent to the program committee for discussion at its meeting on December 3rd. As soon as I know whether they have accepted our recommendation, I will write to you and it may then be necessary to submit a short abstract.

My best regards.

Sincerely yours,

Max Fink, M.D.  
Director
