

August 17, 1971

Dear Dr. Pasic,

I have received the letter of recommendation from my good friend Dr. Hajsek, and I welcome your inquiry. In regret, however, that I do not have an opportunity to provide residency training in my Division. I did enquire whether our Department may have an opening, and find that all openings for 1971-72 are filled.

The principal openings of my acquaintance are in the New Yor State Department of Mental Hygiene hospitals. You may wish to write to:

Dr. Alan Miller  
Commissioner of Mental Hygiene  
Albany, ~~New~~ York

or  
Dr. Israel Kesselbrenner  
Kirby Manhattan Psychiatric Hospital  
Ward's Island, New York.

The first may provide you with general information; the second may have openings as his hospital has recently been separated as a special unit in New York City.

You may mention my name to either man, as I know them both well.

Good luck.

Sincerely yours,

Max Fink, M.D.

P.S. You are welcome to visit my laboratory whenever you are in New York. I suggest you call a few days in advance (212 369 7900) as I am often out of the city.
