Dr. Harold Williams
Univ. Oklahoma Med. Center
Oklahoma City, Oklahoma

Dear Hal,

We are interested in someone with the credentials of Al Salamy, and I thank you for thinking of us.

Our present programs are focussed on the EEG and behavioral effects of opiates, their antagonists, cannabis, and a few new psychoactive drugs. I have been interested in having someone join us who could actively participate with psychiatrists and psychologists, with a focus on the EEG analyses. There is just too much work for me.

We now have our systems running well, focussed about an IBM 1800 with the usual supporting equipment.

The only caveat that should be discussed is that living in New York at the present time is not the best choice an American can make.

I would like to meet him. I will be at the APA in Washington all next week but after that will be in New York. Is he going to be East anytime soon ?

Again, thanks for thinking of us. If these notes interest him, have him call (collect 212 360 7900 x245).

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor
