

April 6, 1966

Mr. Phillip Sapir
Chief, Research Grants Branch
National Institute of Mental Health
Bethesda, Maryland

Dear Mr. Sapir:

The NIH Report "Current Research on Sleep and Dreams" is of interest to us, especially with regard to the reviews of EEG analysis. Would it be possible for this laboratory to receive an additional copy of this publication?

Many thanks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
