Dr. George Verdeaux
Centre Psychiatrique Sainte-Anne
1, Rue Cabanis
Paris 14, France

Dear Dr. Verdeaux:

Your suggestion regarding the publication of the manuscripts of the Montreal EEG symposium to Psychopharmacologia was indeed a good one, but I had already discussed with Dr. Henry your earlier suggestion and, having prepared the abstracts, have asked his opinion. If the Editors will publish the abstracts, I believe the interest of the meeting will be served. If they will not, I would be pleased to have your support for Psychopharmacologia.

Can we agree on a more definitive meeting in September? I have not heard from Professor Gazzulo; and if we cannot stimulate his interest, would you be willing to ask Drs. Flügel and Bente whether they would wish to organize such a symposium after (or before) the CINP in Munich? After all, this may be the best way of accomplishing our aim of another discussion.

Dr. Denber and I discussed this and he indicated he will be in Paris March 26-27. If you could arrange to meet with him to discuss this, it would be helpful. Dr. Rajotte at your hospital will have Dr. Denber's schedule and an appointment can be made with him.

I am grateful for your kind thoughts and look forward to a successful convocation. My best personal regards.

Sincerely yours,

MF:dts

Max Fink, M.D.
