St. Louis, Missouri 63110

Dear Pete,

I want to take this opportunity to thank you for the time you spent in demonstrating your techniques and for the supplies of sodium lactate. They arrived with minimum breakage and we have already used them in two subjects. In our initial experiences, our observations are identical with yours and I look forward to the continuation of our study.

I found my visit so interesting that I discussed it with Dr. Freedman, who would like to invite you to give a talk to our full staff. The subject can be a summary of your studies in anxiety, or any other aspect of your research.

There are departmental meetings every Friday at noon and I would be pleased if you could plan to visit at the end of October or during November.

I will call you later in the week and will try to work out a date that is acceptable.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
