

March 25, 1971

Dr. Ali Keskiner
Missouri Institute of Psychiatry
5400 Arsenal Street
St. Louis, Missouri 63139

Dear Ali,

Apparently, the trip to California was successful. I have requested the reimbursement of your expenses and you should receive these within the next few weeks.

For those physicians who have requested additional information, we had planned to send them copies of the two CDT reports:

Holden, J. M.C., Itil, T. M., Keskiner, A. and Fink, M. Thioridazine and chlordiazepoxide, alone and combined, in the treatment of chronic schizophrenia. Comp. Psychiat., 9: 633-643, 1968.

Itil, T., Holden, J. M. C., Fink, M. Shapiro, D. M. and Keskiner, A. Treatment of chronic psychotic patients with combined medications. Proceedings of the Vth International Congress of the C.I.N.P., Washington, March 1966.

We do not have the reprints here, since the bulk was kept by Mike and Turan. Would it be possible to send a copy of each reprint to each of the physicians who signed for them? (Also, would you please send me a few copies of each article?)

Before Turan left, he indicated that he might be back in time for the APA and, if so, he would participate in the exhibit. I would like to call you a week or so before the meetings and perhaps you and I, with or without Turan, can arrange to cover the APA exhibit.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
