Fridolin Sulser, M.D., Chairman
ACNP Credentials Committee
Professor of Pharmacology
Vanderbilt University
School of Medicine
Nashville, Tennessee 37217

Re: Albert Weissman, Ph.D.

Dear Dr. Sulser:

I am pleased to sponsor the election to membership in the ACNP of Dr. Albert Weissman.

I have known him and his work for at least seven years, in his role as pharmacologist at Pfizer Inc. When I studied the neurophysiological effects of doxepin, thiothixene, and CP-14,368, I found his evaluations most helpful. At various times during these many years I have found his discussions at the ACNP equally useful, particularly as to understanding the methodology of pre-clinical evaluations and their relationship to clinical and EEG assessments.

His publications attest to his experience, and I believe that as a Fellow he will contribute even more than as an annual guest.

Thank you for your consideration.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
