Dr. C. Paul Pascaros
3301 East Ocean View Avenue
Norfolk, Virginia

Dear Dr. Pascaros:

Our programs in the study of narcotic antagonists in the treatment of opiate dependence are expanding, and we are inviting clinical psychiatrists to join the program. Our training division will make arrangements for those interested in specialized aspects of psychiatry, so that you could obtain the exposure to clinical problems in addiction and the psychiatric training you seek.

FADA may support our study programs. We are unaware of any fellowships that they have considered elsewhere.

If you are interested in a training program with emphasis on addiction, or a clinical position in addiction, we would appreciate a copy of your curriculum vitae.

A copy of one of our recent reports is enclosed.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
