Gerald L. Klerman, M.D.
Harvard Medical School
Boston, Massachusetts 02114

Dear Gerry,

I, too, enjoyed the session on Depression and although I was quite anxious about the material before the session, I was pleased with the result. I have received many favorable comments from lay as well as professional friends about the ECT presentation.

Enclosed is the present draft of the report you requested. We are still re-writing the paper for publication, so excuse some of the typographical errors and ambiguities.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
