Dear Bruce:

Thank you for the copy of "Drug Issues in Geropsychiatry." The volume, like the earlier one, shows how little we know of the special problems of drug use in the elderly. It's a good volume (although I found the typeface a bit small), which I will support as reading to my residents.

Enclosed are some preprints of our recent work.

My best regards.

Sincerely yours,

Max Fink, M. D.
Professor of Psychiatry
