

October 23, 1963

Dr. Leo Zach
350 Central Park West
New York, N. Y.

Dear Leo:

I have just celebrated my first birthday at this Institute. The labs are operating very well; patients are in the wards; and after a year and a half of administrative nonsense, I seem to be able to get back to some research of my own.

The children are well and Martha has gone back to school.

Rather than write any more, I should like to come and visit you - both professionally and socially. I should be in New York the week of December 2, 1963. I have commitments during the day of the 4th and should attend some lectures on the 6th and 7th. Can I come to visit you after 5:00 p.m. on the 4th; or, I will take an earlier plane on the 3rd and can arrive by 3:00 p.m.; or, any time during the day on Friday the 6th or Saturday the 7th except around lunch time (when I should be a politician and meet with people)? Many thanks.

My best regard to Lillian.

Sincerely yours,

Max Fink, M. D.
Director
