

March 1, 1966

Dr. Ted Lieberson
Hines,
Illinois

Dear Ted,

I am pleased to send you a copy of a report describing our experiences and the programs for digital computer analysis of EEG. In addition, a shorter review of our applications as we described them at the recent IBM Medical Symposium may also be of interest.

I very much enjoyed your presentation in New York last week, and when a copy is available, would you favor us with one?

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
