Dear Sir:

The Department of Psychiatry of the New York Medical College is embarking on a series of extensive evaluation study programs of the treatment methods in a community mental health center. It is possible that your experience may be useful in such a program, and I am writing to invite you to submit a curriculum vitae.

If you care to call, I am generally available in the afternoon at 212 369-7900.

Thank you for your interest.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
