Dr. Roy R. Grinker, Sr.
Department of Psychiatry
Michael Reese Hospital
Chicago, Illinois 60616

Dear Dr. Grinker:

Dr. Itil and I are pleased to submit our report "Anti-cholinergic Drug Induced Delirium (Experimental Modification, Quantitative EEG and Behavioral Correlations)" for your consideration for publication in the *Archives of General Psychiatry*. I am enclosing two copies, one of which has a set of the original figures.

I trust this will meet with your approval.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
