

November 9, 1966

Dr. Werner P. Koella
Senior Scientist
The Worcester Foundation for Experimental Biology
Shrewsbury, Massachusetts 01545

Dear Werner,

Thank you for your kind invitation to participate in the ACNP meetings. I will do my best to prepare a manuscript and hope to have it available at the time of the meeting. I am going over the data now with my associates in St. Louis and do not think that I will have the manuscript available until December 1.

Incidentally, much of what we present may be more appropriate as discussion or immediately following Dr. Martin's presentation, since I believe the two discussions are more closely related.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
