

March 25, 1966

Raymond E. Barzilai, M.D.
Acting Director
Division of Antibiotic Drugs
Department of Health, Education, and Welfare
Washington, D. C.

Dear Dr. Barzilai:

Enclosed is a Xeroxed copy of the literature review by Dr. Simeon, dated July, 1965, and a list of the citations which provided the basis for our interest in this experiment.

In the original proposal, we had planned to explore the effects of the administration of tryptophan. We have not as yet undertaken this part of the study, and do not plan to do so.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
