25824 Dundee Road
Huntington Woods, MI 48070

Dear Mike,

Enclosed is our file copy of SCIMATE and two diskettes.

The diskettes contain the BACKUP files for our file ECT87. (Get them by RESTORE.) The second diskette also contains three copied files- TNAMEFIL.DAT, TEMPLATE.DAT, AND FNAMEFIL. DAT. When you install SCIMATE, you will find that the template files contain the standard templates given out by ISI. Copy my three files over the Scimate templates; this will conform the templates for ECT87.

Return the manual and original diskettes when you have made your copies.

Good luck. If you have any questions, 516-444 2929. My regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
